AVIANCA AIRLINES DOMESTIC FLIGHTS– ECUADOR TO GALAPAGOS

Must Be Purchased At Least 30 Days Prior to Departure

Flight Times Are Subject to Change

IMPORTANT: The Travel Health Form is completed on the plane prior to arriving in Ecuador. It is important to know that the Galapagos Aggressor III is known as *L/P Jesus del Gran Poder* on the approved vessels by the Ecuadorian Government.

Airline tickets to/from Guayaquil/Quito to Baltra may be purchased from Aggressor Liveboards. With reserved block seats on the charter embark and disembark dates, reservations must be made and paid for **at least 30 days prior to departure date**. Tickets may be purchased up to 6 months prior to departure date. Tickets purchased less than 30 days prior to departure date are not guaranteed space on the flight.

Information subject to change without notice 10/27/2021

We highly recommend spending one night in Guayaquil (instead of Quito) the night before your charter start date and flying to Baltra. Your prepayment to Aggressor Adventures, LLC confirms your airline ticket. Passengers who are not at the airport timely will be considered a 'no show' and will incur loss of reservation. It is VERY important to notify Aggressor Adventures of your hotel reservation as soon as it is made. In Quito and Guayaquil, you must make your own way to the airport. *After your domestic airline ticket is purchased, no changes may be made, i.e. name, schedule changes, etc. These below prices are estimated and can change prior to booking.*

Passengers traveling with dive equipment are allowed one checked bag with 32 kilos/72 lbs. Those traveling without dive equipment are allowed 23 kilos/50 lbs. The total length, width and height of each bag must not exceed 158 cm/62 in. A carry on bag is limited to 10 kilos/22 lbs with a maximum height of 55 centimeters (22 inches), length of 35 centimeters (14 inches) and width of 25 centimeters (10 inches), or whose sum in measurement is equal or less than 115 lineal centimeters (45 inches), height + length + width, including wheels and handles.

ARRIVAL

Your travel arrangements should include a one-night stay (prior to the yacht's departure) in Guayaquil (we highly recommend Guayaquil) or Quito. Please be aware that if you are traveling through Quito, your plans might change due to the activity of the volcanoes

surrounding that city. In addition, the new Quito International Airport is located over one hour from downtown Quito. A one-night stay in Guayaquil or Quito is also recommended after the charter due to airline schedules. (A few airlines offer a red-eye flight Thursday evening)

On the day of departure to the Galapagos Aggressor III, be sure to be at the airport in Quito or Guayaquil at least 2 hours before departure. Prior to check-in at the airline ticket counter at the Quito or Guayaquil Airport, you are required to pay \$20 for the Galapagos Visitors Card. This will be paid at the "Consejo de Gobierno de Galapagos" counter.

We suggest you bring over the counter motion sickness medication or consult your doctor about prescription brands, such as the trans-dermal patch or Scopace tablets. Currents and winds may cause moderate movement of the yacht at times. We recommend a complete physical before your trip. Both Guayaquil and the Galapagos are at sea level, while Quito is at 7,500 above sea level. If you are affected by altitude, we suggest not overdoing it with excess physical activities, food or drink.

Aggressor yachts and staff are unable to accept any medication brought onboard for safekeeping including those that require refrigeration. Should a guest have a medication requiring temperature control, they will need to travel with a travel cooling case or small storage cooler with several blue ice packets. The staff will be happy to store and recharge the blue ice but are unable to accept possession or responsibility for the proper care and storage of medication. This should be kept in the stateroom. **Smoking is not allowed inside the yacht or on the dive deck.** Smoking is only permitted on the rear of the sun deck.

The waters of the Galapagos Islands are a unique mixture of warm and cold water, ranging between 65°F and 85°F, with thermoclines about 65°F. We recommend you bring a 5mm-7mm wet suit with hood and gloves or a dry suit with light underwear all year round. We recommend you take precautions against motion sickness if you feel you will need it. See the "Adventure Log" on the Galapagos page, www.aggressor.com, for current diving conditions. The diving in Galapagos is varied and can have some current and surge. The best diving around the Galapagos Islands is made possible with a tender. Only the initial checkout dive are directly from the main yacht itself. Tender diving is made easy for you as the staff supports divers from both the dive deck and also onboard the tender. Once your dive is completed, you hand your weight belt to the tender driver, take off your BCD and climb in.

DIVING SUPERVISION

You've chosen a LiveAboard vacation for the diving freedom that it offers. While in the water, you and your buddy are in charge. Every dive starts with a dive briefing from our staff. However, as a certified diver, you and your buddy are responsible for planning and

conducting your own dives within the limitations set forth by the briefing. The staff will be on the dive deck (or dingy) providing surface support for divers. The dive briefings ask all buddy teams to try and stay within sight of the dive guide wearing a yellow tank. This way staff in the water can offer support, u/w photography/videography, locate specific points of interest or/observation points and critter spotting for everyone. However, the yacht/staff do not offer direct supervision of dives. If you start out with the group, as long as you and your buddy remain in contact with each other and are ok – you may continue your dive plan if you become separated from the group. Divers who desire more personal attention and structured/supervised dives should consider taking one of our numerous specialty courses. An underlying skill featured in all of specialty training is planning, executing, and debriefing after your dive in order to build a more confident diver.

CONSERVATION LAWS

The Galapagos Islands are a National Park and a Marine Reserve. The park laws do not permit spear fishing, fish feeding, collecting, DPV units, reef hooks or drones.

RENTAL DIVE EQUIPMENT

A full line of Aqua Lung rental gear is available aboard including regulators, BCs and dive computers. You may rent a 7mm wetsuit with hood for \$70 per week. Guests who require more custom sizes (4XL, XXS, or XS, or short / long versions) should bring their own wetsuit with them.
